

LABOR POST IN
CABINET FIRES
INDUSTRIAL WAR

Labor Leaders Fear Appoint-
ment of Man Opposed to
Closed Shop Principle.

HOOVER IS AFFECTED

Both Capital and Labor Warned
That Extremist Will Not
Be Appointed.

BY DAVID LAWRENCE

Washington.—News of the fight be-
hind the scenes between capital and
labor over the type of man who shall
be the next secretary of labor is be-
ginning to trickle out, and explains
to some extent the unrest in the cabi-
net state which had been tentatively
made up by President-elect Harding.
Both sides are demanding the im-
possible. Some representatives of
manufacturing interests want a man
who favors the open shop or rather
one who will recognize the right to
close a shop to union workers. Labor
on the other hand wants a man who
is not fundamentally prejudiced
against unionism and who will not be
harmful to the unionization of plants
and factories that are not organized
by the unions.

Briefly this is the whole struggle be-
tween capital and labor over again
with this change: As prices are com-
ing down there are certain manufac-
turers who believe the time is ripe to
strike a body blow at unions by re-
fusing to employ union men or work-
men who insist that their fellow em-
ployees shall be unionized. This ex-
tremist attitude is defended in some
cases because when prices were high
and the demand for labor was urgent,
the unions are alleged to have insisted
upon union rights and the transforma-
tion of non-union plants into union
membership.

Can't Expect Extremist

Rather significantly the other day
the New York Herald, owned by
Frank A. Munsey, and an influential
organ of the Republican party, hinted
at the fight over the secretaryship of
labor by telling both sides that the ap-
pointment of an extremist could not
be expected. It is said that the edi-
torial in question was inspired by a
desire on the part of Mr. Harding's
friends to make his task easier by
telling the employers in the citadel of
manufacturing interests that they
could not hope for editorial support in
their campaign for a partisan on the
labor question.

The fortunes of Herbert Hoover are
to some extent bound up in the con-
trover. Mr. Hoover was practically
selected by Mr. Harding for the sec-
retaryship of labor because liberal
employers who wanted a fair man
rather than a partisan thought the
former food administrator's attitude
toward the labor question was sound
and that he enjoyed the confidence of
both sides. The American Federation
of Labor itself recently invited Mr.
Hoover to appear before it and give
advice and it is suspected that labor
would accept the appointment of Mr.
Hoover with signs of relief, not be-
cause he represents their viewpoint,
but because they have been in fear
that a neutral would not be appointed
and that the next four years at least
would be a constant battle with an
arch foe of unionism in the depart-
ment of labor.

Diplomat is Needed

The trouble is that both sides are
emphasizing their rights when each
side should be announcing their con-
cessions so a compromise may be
worked out. That's why Mr. Harding
himself is eager to appoint a man
who shall have the imagination, initia-
tive and force to work out a real so-
lution of the differences between em-
ployer and employee. The importance
of the appointment too lies in the
fact that the department of labor in-
vestigators must be impartial and
that whenever a labor strike arises and
that their conclusions must be skill-
ful enough to retain the confidence of
the parties to a strike. The fear of
the conservative labor leaders is
that if a foe of unionism is appointed
there never will be any recourse to
government boards of mediation and
conciliation and that the progress
which has been made toward the
friendly settlement of labor disputes
will be lost.

The president's first industrial con-
ference failed because both sides re-
fused to compromise. The second con-
ference, differently constituted, got
somewhat further along but never at-
tempted to deal with fundamentals. It
set about to devise means of settling
industrial disputes only after they had
arisen. The open and closed shop
question is still unsolved. The real
fight that is coming is not over reduc-
tions in wages but the open shop issue.
Employers organizations here
admit the struggle is on in earnest
and that the first step is the appoint-
ment of a secretary of labor. There
are two kinds of open shop, one that
is open to union and non-union work-
ers with the two classes on an equal
footing and in which the management
deals with the workers through local
committees without reference to their
national organizations. The other kind
is the shop closed to union workers al-
together. Unfortunately some employ-
ers leaders mean the latter kind when
they talk about an "open" shop. What
they mean is one that is closed to
union men.

MILWAUKEE WANTS
PART OF CAPITAL

Movement is Started to Trans-
fer Government Offices to
Cream City.

By United Press Leased Wire
Madison.—The long threatened at-
tempt to bring to Milwaukee part of
the state administrative offices crys-
tallized into actual attempted legisla-
tive action in the senate today with
the introduction by Senator Geo. F.
Czerwinski, of Milwaukee, of an act
which called for a committee to in-
vestigate the matter of congestion in
the capital.
Senator Czerwinski's resolution
asked that a joint committee from
the senate and the assembly be ap-
pointed which would look into the
crowded conditions of the state house
and "decide upon erection of a cap-
itol office building to be located in
Madison or any other suitable place."
Madisonians have been awaiting
such a move and immediately coun-
tered the parr. Senator Henry A.
Huber, Stoughton, took the floor and
moved that the resolution be tabled
for one week. This motion was passed
and the resolution went into pic-
nicon holes for the time being.
That an attempt would be made by
Milwaukee to bring to that city some
of the important state agencies was
forecast when several months ago
the Cream City chamber of com-
merce appointed a committee to
handle the proposition.

PUT LID ON DOCTORS'
BOOZE PRESCRIPTIONS

By United Press Leased Wire
Chicago.—The first campaign against
misuse of prescriptions for booze by
physicians in Illinois, was under way
today with twenty federal agents
from Washington investigating the
issuance of excessive numbers of per-
mits.
Warrants for arrest of twenty
doctors will be issued immediately,
District Attorney Clyne announced,
and an investigation will be conducted
into prescriptions used by every
doctor in the state.

CARDINALS IN AMERICA

By United Press Leased Wire
Rome.—Two cardinals will be ap-
pointed from the United States dur-
ing the Easter consistory at the vati-
can, it was believed today.
Archbishop George W. Mundelein,
of Chicago, and Dennis J. Dougherty,
of Philadelphia, were mentioned.
Archbishop H. J. Hayes, New York,
also was mentioned as a possible choice.

BABY BUGGIES HIT
BY BUYING STRIKE

Chicago.—The consumers' strike has extended to baby car-
riages, O. W. Seibert, president of the
National Association of Baby Vehicle
Manufacturers, meeting here today, said.
The baby carriage makers
considered means of inducing
the public to purchase more of
their product.
Seibert said the birth rate was
apparently normal, but as the
production had been cut down 50
per cent, there was still an over-
supply.

NEW DEPARTMENT
COSTS TOO MUCH

Harding Abandons Plan for
Former Public Welfare
Department.

By United Press Leased Wire
Marion, Ohio.—Temporary abandon-
ment of the plan for a department of
public welfare is considered by Presi-
dent-elect Harding, due chiefly to the
demand for government economy.
During the campaign Harding de-
clared for a department of public wel-
fare combining the machinery now
scattered among various executive de-
partments, including the public health
service under the treasury depart-
ment, the bureau of education in the
interior department and the children
welfare department with the labor de-
partment.

One argument used against intro-
ducing the new department now is
that it would entail the expense of
another cabinet officer, a considerable
clerical force and probably erection of
a large building in Washington.
It has been Harding's intention to
appoint a woman as head of this de-
partment, making her a member of his
cabinet also.
There is a three-cornered contest be-
tween the educators, the medical pro-
fession and social workers over the
proposed department.

DEPRESSION PAST,
SHOEMEN DECLARE

By United Press Leased Wire
Milwaukee.—Declarations that the
so-called period of depression, which
has been widely advertised as exist-
ing in this country since a few months
after the close of the war, is now passed,
are being heard frequently at the
tenth annual convention of the National
Shoe Retailers' association, now be-
ing held here.
Optimism reigns among the shoe
men and, according to James H. Stone,
editor and president of the Shoe Re-
tailers, orders placed by the shoe men
here in the first three days of the con-
vention run into millions of dollars.
New officers of the national associa-
tion are to be announced at the con-
clusion of today's session. The board
of directors announced late yesterday,
is as follows: Percy E. Hart, New
York; Henry E. Hagan, Boston; H.
E. Fontius, Denver; Charles E. Wil-
liams, St. Louis; J. E. Wilson, De-
troit; W. S. Byck, Atlanta, Ga.; Hea-
ton Alexander, Wheeling, W. Va., and
W. W. Wilson, Boston.

He recommended the establishment
of a fund, by which a part of the
burden of supporting the University,
normals, common schools and roads
may be accomplished by income taxes.
"This proposed revision of the in-
come tax law does not contemplate
any increase in the taxes in the ag-
gregate," continued the governor.
"My recommendation only goes to
the point of establishing a system
whereby those who are best able to
pay will bear their just share of the
cost of the government. In my opin-
ion, we should also establish a ratio
as between the property tax rate and
the income tax rate, so that in the
future, if there be any increase in the
property tax rate, in the average, the
income tax rate shall increase ac-
cordingly."
Higher Exemptions
Recommendation was made that the
exemptions under the income tax law
should be increased, as a result of the
cost of living, and that the new ex-
emptions be not less than that estab-
lished by the federal government.
He urged the removal of the secrecy
clause from the income tax law and
pointed out that as the result of an
act only 127 out of 12,000 corporations
in the state an additional income tax
of \$102,334 was assessed. Inspection
by local tax authorities and others
will help to remedy these wrongs, he
declared.
A number of inconsistencies in the
market commission law were pointed
out and the governor recommended a
strengthening of the law. He declared
that the constitutional inhibition
against the open shop in all indus-
tries.

SAYS BOARD OF TRADE
IS GAMBLING SYNDICATE

By United Press Leased Wire
Topeka, Kan.—Kansas farmers to-
day were urged by P. Dumont Smith,
of Hutchinson, "to form a selling or-
ganization similar to that used by the
steel trust to market their grain."
Until they do this, Smith told dele-
gates attending a meeting of the state
board of agriculture and "take steps
to regulate the flow of grain to mar-
kets, their business would always be
on the brink of ruin."
Smith, who is a prominent attorney,
compared the board of trade opera-
tions with crap shooting and poker
playing and urged that immediate
steps be taken by the legislature to
"eliminate the grain gambling evils."

TURKS UNABLE TO HALT

Constantinople.—The roll of artill-
ery rang through the hills surround-
ing Brusa today and long trains of
wounded wound their way back to the
Greek base.
The Turkish nationalists were re-
ported resisting vigorously the Greek
advances without success. Important
Greek successes were claimed in the
Brusa, Cereck and Meandros sectors.

New Governor Urges Initiative,
Referendum and Recall in
First Message to Legislature,
Would Speed Road Building.

By United Press Leased Wire
Madison.—Establishment of a trade
commission expected eventually to be
patterned after the "federal trade
commission," was advocated by Gov-
ernor John J. Blaine in his mes-
sage to the state legislature here today.
The proposed trade commission,
it was said, will aim to control and
regulate prices and prevent profiteer-
ing.

Whether the governments them-
selves—statesmen in power in Europe
and Asia—sincerely want disarmament
on a fair basis, is a question which
the house naval affairs committee in
its hearings on disarmament has not
yet determined, but the committee
members are satisfied that the de-
mand exists.

To determine the real attitude of
the "men who rule," was one of the
main objects of the hearings instituted
by the house committee.
A satisfactory answer was not forth-
coming, the committee decided.
General Tasker Bliss believed the
governments of the world were yearn-
ing for disarmament. Secretary Dan-
iels thought the world was in a mood
to disarm but insisted the American
navy must be as mighty as any other,
even on a disarmament basis and did
not explain how Great Britain would
greet this proposal.

Acting Secretary of State Davis said
the United States "had no official
knowledge" as to whether the govern-
ments of the world were sincere in
their disarmament "feelings."
But with both the legislative and ex-
ecutive branches of the American
government feeling that "something
must be done," the question arose to-
day as to what course should be pur-
sued. Significance was attached to
the statement of Representative But-
ler, Pennsylvania, that he believes
steps toward a disarmament confer-
ence would be taken within the next
few months. Butler had but recently
conferred with President-elect Hard-
ing.

GREAT LAKES STATION

Chicago.—Several hundred work-

Closing of the training school will
be in line with the navy's retrenchment
policy, according to the reports.

By Charles M. McCann
Dublin.—Unusual precautionary
methods for safeguarding troop
trains were adopted by the British
government today, following the de-
railment of a train near Kinscassagh
yesterday.

The train completed its trip today,
after as thrilling a run as might have
been experienced by the first Ameri-
can trains to pass through the Irish
railroad system.
Every window in the train was
shattered by Sinn Fein rifle bullets
and officers declared only a miracle

casualties.
The first warning of attack came
when the locomotive and a number

bumped over the ties for a few yards.
Soldiers dismounted immediately and
poured fire into the brush covered
country while trainmen repaired the
damage and got the train under way.

FORCE ACTION
ON DEMAND FOR

Popular Demand for Smaller

MOST OF WORLD IS READY

American Government Unable

By Ralph H. Turner

Washington.—Popular demand for
disarmament has gained such momen-
tum throughout the world that gov-
ernments will be forced to act to sat-
isfy the people, in the opinion held by
both members of congress and officers
of the navy.

Disarmament talk, they pointed out
today, has been accelerated with a
forcefulness which is certain to lead
to action in the same way that in-
sistent "peace talk" hastened the
signing of the armistice.

Federal District Attorney Saw-

Chicago.—The "hip" liquor contro-
versy now waging between Prohibi-

General Palmer, Richardson declared
here today.

The controversy grew out of al-

liquor traffic was not in violation of
the prohibition law.

"I was not surprised at the state-
ment of Attorney Sawyer," Richard-
son said.
"We have been unable to secure

Russia, Poland, Balkan and

Paris.—More than 3,000,000 men will
be thrown into fighting along the
Russian boundary early this spring,
according to information given out by
French military experts here today.
Their analyses indicate the fighting
front will extend from 200 to 250 miles.
Their analyses indicate the CN in
The bolsheviks are expected to
launch several major spring drives,
the French authorities said. Meeting
them will be troops from several Bal-
can states rallying in support of Ru-
mania, Czechoslovakia, Poland and
perhaps the border states which Rus-
sia wishes to reclaim.

The military strength of the coun-
tries expected to enter the fighting is:
Russia, 1,000,000 men; Poland, 1,000,
000 men; Rumania, 500,000 men; Baltic
states, 500,000 men.

Military experts agree that the mil-
lion men expected from Poland would
be her maximum strength while the
million ascribed to Russia was a mere
beginning. That number, however, in
view of her ability to train and equip
an army, is regarded as her maximum
for the spring campaign.

They also added to the forces of the
nations marked for attack by the bol-
sheviki, men who might be expected
from Yugoslavia and Czechoslovakia.
Prepare for War
France and Italy have not discussed
their attitude but it is expected they
will do so at the coming conference of
premiers here.

Meanwhile active preparations for
war are proceeding at a dozen scatter-
ed points in Europe.

One of the significant things was
the speed with which Italy and Yugo-
slavia arranged to ratify the Rapallo
treaty, composing all differences be-
tween the two countries. Statesmen
regarded the activity as part of a pro-
gram to rid themselves of all incum-
brances so the little entente can act
unitedly in behalf of Rumania when
the expected bolshevik attack occurs.

Excuse for Attack

Rumania is said to be negotiating
with the soviet on the matter of al-
tering the Bessarabian boundary line,
with Russia rejecting all proposals.
In many European capitals this is re-
garded as an effort to leave the Bes-
sarabia province an excuse for at-
tack in the spring.

While the northern states see in
the projected Russian attack an at-
tempt to spread soviet power over Eu-
rope, the southern nations look upon
it as a means of opening the way to
Constantinople.

Combining the drive through Ru-
mania with an attack on the eastern
side of the Black Sea, they believed,
the soviet would be carrying out a
plan to link Turkey and Russia and
make Constantinople an outpost of
bolshevism. At the same time the
Mohammedan countries will be thrown
open to the Russians.

The southern states looked upon
Red concentrations along the Polish
and Baltic lines largely as measures
of defense while the real shock troops
and heavy artillery were being piled
up on the Rumanian and Azerbaijan
fronts.

Claim 5,000,000 Men

The strength of the Red Army was
a matter of much speculation in mil-
itary circles of all Europe today. The
bolshevik themselves claimed ability
to put 5,000,000 men in the field by
next summer. French experts said
the tremendous resources of the soviet
country, but were skeptical as to her
ability to train and equip that num-
ber. Reliable analyses showed that
500,000 now are under arms while
equal numbers of reserves are sta-
tioned at Moscow, Petrograd and
Roual.

One of the busiest places in all Rus-
sia, according to reports here, is the
Putiloff munitions factory, near Pet-
rograd. Before the war, 25,000 per-
sons were employed in that factory
and its output was sufficient for an
army of millions. Donetz plants are
also busy.

PAY STIFF FINES

Racine, Wis.—Eight or eleven sal-
oonkeepers of Racine and Corlies ar-
rested in raids Wednesday night when
whisky and slot machines were con-
fiscated, entered pleas of guilty in the
municipal court today and paid fines
of \$200 and costs.

Two of the men entered pleas of
not guilty and in another case sen-
tence was suspended.
Those who paid fines were Joseph
Sidel, John Nelson, A. J. Kalanawasz,
Joseph Koniak, of Racine, and Frank
Fiedling, August Wilson, Peter and
Harry Stevenson of Corlies.

John Kumer and John Adamski,
both of Racine, entered pleas of not
guilty while sentence was suspended
in the case of Peter Lane, of Corlies.
The raids were made by federal and
state prohibition agents assisted by
Sheriff James and deputies.

Two truckloads of whisky and slot
machines were confiscated.

Washington.—A "murder gang" of
British forces scours Ireland, terroriz-
ing its inhabitants, Donal O'Calla-
ghan, lord mayor of Cork, said
today.

O'Callaghan, who came to
America as a
stowaway, and
has so far resisted
departing ef-
forts to deport
him, was witness
before the unoffi-
cial Villard com-
mission on condi-
tions in Ireland.
O'Callaghan
charged a long
list of atrocities
to the "murder
gangs."

He described
raids by drunken
parties, com-
posing the "murder gangs" when he said
Irishmen were beaten, cursed and
threatened, houses looted and women
insulted. One case of assault on a
woman was charged.

He said another woman fell dead of
fright when the "murder gang" came
to her house at night, searching for
her husband.

The spectators applauded when he
declared the "murder gang" atrocities
only stimulate the Irish spirit. He
read affidavits supporting his charges.
He quoted the British commanding
officer of the "murder gang" as declar-
ing "all the people of this country are
to be moved down in twelve months."

M. F. Doyle, Philadelphia, O'Calla-
ghan's attorney, said he "has reason
to believe" the state department
will "reverse its attitude and allow
O'Callaghan to remain in this country."

prices are falling and the cost of living is being slowly but gradually reduced, the worker whose wages are not reduced is in actuality getting a progressive wage increase. Skilled labor as evidenced in the department of labor statistics, for the most part, received wage increases during the war which were in excess of the increased living costs. Open warfare will result, however, if in addition to reducing wages, advantage is taken by employers to reopen old sores and start the trade union battle anew. Disinterested folks in such institutions as the department of labor and the United States Chamber of Commerce predict the failure on the part of union labor to force a closed shop on the country and the defeat of the manufacturers to bring about their kind of a closed shop. When the armistice is declared, both sides will be more reasonable. In the meantime the struggle has managed to affect the chances of Herbert Hoover for the secretaryship of labor. The advantage that Mr. Hoover has, however, is that Mr. Harding wants him either for secretary of labor or secretary of the interior. If he is side-tracked for the one portfolio because of the open shop issue Mr. Hoover being a Californian and an engineer still remains eligible for the secretaryship of the interior, which usually goes to a westerner.

More Snow Coming

So far the city has had very little snow, but the worst part of the winter is still to come. Last winter the snow was removed from the streets twice in December, nine times in January and four times in February. Practically all of the January storm came after the middle of the month, so it is a little early to make predictions for this winter.

CROUP

Croup comes like a thief in the dead of the night when least expected. It may take hours for a doctor to arrive, and immediate treatment is necessary. That is why the careful mother always keeps a bottle of Glessco in the home. Glessco has stood the test of time. It has been used in millions of homes for years. It is a reliable remedy. Safe and sure in action, immediate in relief. Glessco is guaranteed to relieve an attack of croup in fifteen minutes without vomiting. It carries the offending mucus out of the system and does not upset the stomach.

Ask your doctor about Glessco. Your druggist will tell you that there is more of it sold every year than all other croup medicines. It costs 50c per bottle and is worth ten times as much in time of need.

Avoid Duplication

He declared the division of markets which was created "within the department of agriculture" by the legislature in 1919, has no necessary relation to the department of agriculture, showed where there is needless duplication and expense in the demarcation of duties of the division of markets and the dairy and food commissioner and recommended an amendment to the marketing law which will bring about the elimination of this duplication, intimating the merging of the two departments.

He advocated a basic 8-hour day for industries but not on the farms.

STARTING TODAY

Corinne GRIFFITH in "Thin Ice"

This drama, one of the best ever written by Shannon Pitts, carries a lesson to every girl and woman, in addition to being a love story of strongest human appeal and dramatic power.

Miss Griffith never has been seen to better advantage and the role of Alice Winton, the bride who fights unaided against crushing odds for love and honor, is one of the strongest in her screen career.

Tom Mills directed the picture and in the supporting cast are L. Rogers Lytton, Charles Kent, Eulalie Jensen and Alice Terry.

Junk Isn't Worth Hauling Off Premises, Dealers Say

Depressing Business Conditions Knock Bottom Out of Junk Market.

"Any rags, any rubbers, any bottles, today? It's the same old story in the junk cellar way." The quotation isn't quite true just at present, in fact, it's a new story that is occupying the minds of junk dealers in the city. That pile of old iron in your back yard, or those rags and rubbers and papers in your cellar which you figured would net a neat little sum, are hardly worth the time required to carry it off the premises.

The market for junk, like nearly everything else, is dropping. Lack of demand by the manufacturers is blamed for the price decrease. Appleton junk dealers say all the mills are shutting down. If that is case, they have no use for raw material and consequently the price goes down.

Papers and magazines sold for as much as 75 cents a hundred pounds during the war. Old rubber was worth from 6 to 10 cents a pound, and rags were sold for 3 and 4 cents a pound.

"Lack of production is causing the falling of the junk market," said I.

Bahcall. "The mills are not running full time and they can get along with what raw material they have. If they don't need material they are not going to pay a high price for it. The old papers and magazines that are collected are used over again in the manufacture of paper. Rubbers also, are again manufactured into rubbers."

"Nobody is buying," said A. Kron of the Appleton Iron and Metal Co. "and if nobody buys, there is no price for junk. The mills are all shut down. It is hard to say when things will be better. The junk market is dropping like every other market, and when

EVENING SCHOOL CLASSES

everything else goes up again. I suppose we will be able to pay more for junk."

"Lack of demand is the whole thing," said Michael Hukowitz. "The mills are not using raw material so naturally they won't buy it. Rubbers are not worth anything, we don't buy them at all, but about two or three years ago, we paid as high as 10 cents a pound for them. Paper, baled and bundled up good and delivered, is worth \$3 a ton. Sorted rags are still high. There are not many of them left; the people do not sort them. Fixed rags are not worth very much."

The general opinion among Appleton junk dealers is that the idleness of the mills is causing the falling off of the market. None of them expect a change to high prices again for some time. They say all things are falling equally. Other prices are going way down, so why shouldn't junk prices go down also.

NATIONAL C. OF C. TO STUDY HOUSING

Appleton Chamber Seeks Representative at Washington Gathering.

Housing problems will be studied from almost every possible angle at the meeting of national councilors of the Chamber of Commerce of the United States at Washington, January 27 and 28. A copy of the program has been received by the local chamber.

Appleton may possibly be represented by some member of the chamber who is in the east on the above dates. No councilor has been elected to sit with the national body and Secretary Corbett therefore is seeking someone who will represent the local organization.

General aspects of the housing question will be considered on the opening day, such as housing's relation to national welfare, the extent of the shortage, municipal plans for relief, and the effect of the shortage on standards of living and ultimately upon industry.

Group meetings will be held January 3. One will deal with construction, considering standardization of manufactured products entering into building, standard building laws, labor situation and available supplies of building materials.

Industrial housing will be considered by a second group, discussing one industry companies, civic housing projects and economic value of good layout for industrial developments.

Financing of housing developments will be taken up by a third. Effect of exemption from taxation, British and Canadian government methods of financing, effect of New York building investigation on costs, and cooperative or mutual financing of housing developments will be among subjects considered.

The closing topics for general consideration are good housing as an essential American housing and the immigrant, and what action the conference should take.

TRACTION COMPANY IS NAMED IN FOUR SUITS

Four of the cases scheduled for the January calendar of the circuit court of Winnebago county at Oshkosh involve the Wisconsin Traction, Light, Heat and Power company. The four plaintiffs are Mr. and Mrs. William Lohmann and Mr. and Mrs. Charles Langer, who were injured when their automobile was demolished in a collision with an interurban car near Waverly beach last summer. The suits involve large sums for loss of the automobile and for personal damages.

The case of Ida Schanka against the company was passed.

CATALOG BOOKS, TEACHERS TOLD

Rural School Superintendent Advises Careful Examination of Library.

"Now is the time to do your duty with the library that is in your school," says A. G. Meading, county superintendent, in a letter to teachers of the county. "The law requires you to catalog the books. Do not start by criticizing the previous cataloging. The next teacher may find fault with your effort. New books have been delivered during the fall term. See that

these are properly cataloged. Be sure to leave a clear record of your work in the accession book so that the next teacher may know the books that have been cataloged.

"If, by some chance, previous teachers have evaded this duty, will you catalog two or three of the old books to help the work along? In a few years, this neglect will be corrected. Could you not teach a couple of the older girls to catalog and have them practice on the older, uncataloged books? At any rate, we shall need a clear statement of the condition of the library before the end of this school year."

The 1920-1921 township library list was sent you early in the year. Please make up a list of books suitable for your library. Your district is entitled to a certain number. Name two or three substitutes in the event your selections cannot be furnished.

ATTEND INSURANCE MEET AT OSHKOSH

F. F. Wettengel and Henry Reister Hear Reports on Record Agency Year.

Fred F. Wettengel and Henry Reister were at Oshkosh Tuesday to attend the annual meeting and dinner of the central Wisconsin agency of the Northwestern Mutual Life Insurance company, headed by D. N. Cameron. The afternoon was devoted to discussions and the evening to speech making.

About 50 agents of the 17 counties in the district attended. Several of the trustees of the company also were present, including F. J. Schenck, president, Neenah, and Mitchell Joannes, Green Bay. M. J. Cleary, vice-president and former insurance commissioner, George E. Copeland, superintendent of agencies, and Attorney E. J. Dempsey, Oshkosh, were the speakers. W. H. Dallas, assistant superintendent of agencies, had charge of the afternoon discussion.

Reports showed that the central Wisconsin agency, with which Wettengel and Reister are connected, was the only one outside the Milwaukee agency which reported more than \$50,000,000 worth of insurance written within the last year. Milwaukee led in per capita insurance among people of insurable age and this agency is second in the entire United States.

Individual honors went to M. A. \$7,000,000 and was exceeded by \$5,000,000.

Ends Stubborn Coughs in a Hurry

For real effectiveness, this old home-made remedy has no equal. Easy and cheaply prepared.

You'll never know how quickly a bad cough can be conquered, until you try this famous old home-made remedy. Anyone who has coughed all day and all night, will say that the immediate relief given is almost like magic. It is very easily prepared, and there is nothing better for coughs. Into a pint bottle, put 2½ ounces of Pinex; then add plain granulated sugar syrup to make a full pint. Or you can use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, the full pint saves about two-thirds of the money usually spent for cough preparations, and gives you a more positive, effective remedy. It keeps perfectly, and tastes pleasant. Children like it. You can feel like a hold-up artist, soothing and healing the membrane in all the air passages. It promptly loosens a dry, tight cough, and soon you will notice the phlegm thin out and disappear. A day's use will surely break up an ordinary throat or chest cold, and it is also splendid for bronchitis, croup, hoarseness, and bronchial asthma.

Pinex is a most valuable concentrated compound of genuine Norway pine extract, the most reliable remedy for throat and chest ailments. To avoid disappointment, ask your druggist for 2½ ounces of Pinex with directions and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Ft. Wayne, Ind.

paid insurance in 1920, and to T. S. Connor Fund du Lac, who wrote \$1,009,670 worth. Out of a total of \$10,104,165, insurance reported the percentage of people of insurable age in the district written was 63.15 for an estimated population of 159,921.

The 1921 allotment for Mr. Cameron's agency was set at \$12,000,000 meaning that the various branches must write \$1,000,000 worth of insurance a month. Last year's quota was written in 1920 alone less than \$7,000,000 was exceeded by \$3,000,000.

THE LEGISLATURE

After the showing which the La Follette forces have made in Wisconsin during the last year it doubtless will be a surprise to many to find that they were unable to organize the legislature. In both the house and the senate the La Follette machine failed to secure control on test votes. The president pro-tem of the senate and leader of the majority are chosen from the more conservative and anti-La Follette element. It will naturally follow that the committees of the legislature in both branches will be formed on a similar basis.

The result shows that Wisconsin was not as radical in the last election as it seemed at the time to indicate. Mr. Blaine's election, for instance, was regarded by many as a triumph for radicalism, but that of course was a superficial judgment. Mr. Blaine himself knew that he owed his success largely to a division of the conservative strength in the Republican party as well as La Follette's support. Mr. Blaine is a man of intelligence and a student of Wisconsin politics, and we have felt all along that when he was actually placed in the governor's office we would find that he was an executive of greater conservatism and with better balance than he was reputed to be by his opponents.

The organization of the legislature should convince Mr. Blaine, we think, of the wisdom of seeking cooperation between the opposing elements of the Republican party and of bringing them together so far as possible upon a program of legislation that would be likely to meet with the genuine approval of the people of Wisconsin. The fact that the house and senate have been organized against La Follette is a fortunate thing for the state if for no other reason than it will insure critical analysis of all proposals put forward by the new administration, and the kind of opposition that generally makes for sound legislation.

Governor Blaine would unquestionably strengthen himself by keeping out of political controversies so far as possible. He can be of much greater usefulness to the state of Wisconsin and the Republican party by using his good offices to bring into closer relationship the antagonistic elements within the party than by accentuating the breach. So far as the legislature is concerned we hope the majority will not allow any prejudices it may hold against the governor of a political nature to influence its attitude toward his policies and recommendations. These should be considered on their merit and if that were really done it would go a long way toward wiping out factional politics in Wisconsin.

Some important measures are to come before the legislature dealing with taxation and political change. This is indicated on the face of things by the mere change of administration. It is of great importance that these proposals should be weighed in a temperate spirit and with a purpose to evolve laws based upon correct economic principles and the true interests of the public. This can only be assured if we have an honest and conscientious application by the legislature to the business which is to become before it. It cannot be hoped for if factional politics seeks to serve its ends through the medium of legislative enactment.

GEN. BLISS FOR DISARMAMENT

General Tasker H. Bliss, former American representative of the supreme war council at Paris, and one of the ablest men in our military establishment, expressed as his opinion before the house naval committee yesterday that should the United States call upon the nations of the world for "a full, free and fair discussion of reduction of armament, the favorable response would be prompt and inevitable." Certain of the press of the country, particularly that hostile to Great Britain and Japan have recently sought to cast suspicion upon the motives of these two powers in their professions of willingness to

reduce armaments. It has been asserted that their proposals or expressions were not made in good faith and that the United States could undertake disarmament in conjunction with them only at its peril.

General Bliss was on the scene at Paris when questions of this kind were uppermost in the minds of both military leaders and statesmen. He states that his association with the high representatives of the other powers at Paris confirmed his belief that all of the great nations of the world are ready to talk disarmament seriously. He is of the opinion that Great Britain, France, Japan and Italy would readily agree with the United States to a program requiring a gradual and uniform reduction of the military establishment, and could be relied upon to execute such an agreement in good faith. He reasons that the smaller nations would immediately adopt a similar policy and that their attendance at a conference for this purpose would not be necessary.

General Bliss' position conforms with that of others who hold that the responsibility for initiating disarmament rests upon these great powers, and that no action is likely to be taken, in view of the fact that the United States is outside the League of Nations, unless this government takes the lead. Reports from Washington indicate that President Wilson is not favorable to calling such a conference, but we have no doubt that Mr. Harding, when he becomes president, will, in view of his many utterances on the subject, be prepared to give immediate and favorable consideration to a proposal of this kind. Despite the failure up to this time to make any concrete move for disarmament the prospect for early action must be regarded as encouraging.

SPRING AND BUSINESS

Signs of spring are already at hand, we are told. The first robins have been seen and farmers report frogs hopping about their pastures. Just at present the robins and frogs may be seeking cover but nevertheless their appearance in mid-January turns our thoughts toward the approach of spring.

Most of our financial, industrial and economic experts have agreed that spring is to bring a marked revival in business. Therefore, it is natural to expect that with signs betokening the arrival of spring we should look for signs of business resumption and renewed prosperity. Surely enough of these evidences are at hand. In yesterday's telegraphic reports there were numerous references to industrial revival. At Kenosha the Nash Automobile factory re-opened with two thousand employees, which are to be gradually increased. At Decatur, Illinois, a starch factory resumed and took back five hundred men. At Toledo the number of unemployed has been reduced from twenty-seven thousand to fifteen thousand during the last week. The Willis-Overland plant will re-open about February 1st.

Reports from Pittsburgh show that the Carnegie Steel company broke all December records in the production of steel. They are operating at 95 per cent of capacity, and the mills of the United States Steel corporation are operating on a 91½ per cent basis. "Almost every fundamental condition in this country is tending toward sound, healthy, solid prosperity," said B. C. Forbes, editor of Forbes Magazine, at the opening session of the Hundred Per Cent club of the National Cash Register company of Dayton. At the annual dinner of the National Automobile Chamber of Commerce at New York, Francis H. Sisson declared that the United States has passed through the most critical of its post-war readjustments.

Perhaps we should not expect favorable reaction to this extent each week, for there are certain to be brief periods when we will seem to be losing ground again. Some additional industries may curtail their forces and there may be further reduction in wages. We may even have days of apparent business recession. It would be strange if we did not have these fluctuations, for recovery is not likely to come with a rush or constant flow. On the whole, however, the probability is that we may from now on look for a general upward trend. What may be just one day may be more than made up the next day. This is to be regarded as distinctly favorable because it cannot fail to stimulate confidence and encourage optimism. The conclusion is warranted, we think, that the producer is not going to give up, that labor and the consumer are not going to give up. If that is true it will not be long until the signs of prosperity become more numerous and we all recognize that we are on the way back to normal conditions.

THE WHYS IN CORYZA

A doctor after me own heart tells this story: While paying a visit to a patient in X Street, I was asked by the next door neighbor to stop as I passed. I found the three children chasing about the house with some fever, general malaise and loudly running noses. I informed the mother that they all had coryza.

"Coryza! Is it dangerous?" she asked with the usual mother anxiety.

"Well, no, not as a general rule," I prognosticated guardedly.

"Is it catching?" was the mother's next question. "Very contagious, spreads like wildfire in the early stage," I assured her, "unless the patient is immediately and completely isolated. Your children have caught it because somebody ignored that little duty."

"Coryza—ah," she repeated thoughtfully, "coryza—why, I've never heard of that before, doctor. Is it some new pestilence?"

"Oh, no, madam it is as old as the knowledge of mankind. I believe it has been given different names in different periods of human evolution. Back in the Neocene period it was called a catarrh. In the middle ages the Philistines re-named it cold in the head."

"Cold in the head! Is that all ails the children?" the lady demanded.

"I saw that it was high time for me to be serious. We do not call it that any more, madam," I explained solemnly. "Coryza is the term we use today. Five dollars, please."

"Five—?" The lady paid me with her eye-brows high. Something tells me I'll never be called to that home any more. And yet the fee should have been nine dollars—with war tax additional!

Whatdaya say?

Perhaps the lady would have preferred diphtheria or measles or infantile paralysis or meningitis. Any of these may have all the earmarks of coryza at its onset. What she was mad about was probably the error she thought she had made in summoning the doctor for such a simple thing as a common cold in the head—and if that is the case then the children are to be pitied. For an illness purporting to be so very simple coryza together with its manifold complications and sequelae is quite as serious as is bronchitis in child or adult. The trouble is that too many of us persist in dealing with the illness in the fine old fifteenth century way.

The children were playing intimately about the house when the doctor called. One, the first to contract the infection, had peppered the other two, of course.

When will mothers learn that the first duty in any acute trouble of nose, throat or chest is ISOLATION? QUESTIONS AND ANSWERS

Dear Sir:—For about a month I have been troubled with a backache low down. I have been trying ————

ANSWER—A dangerous experiment. Backache is practically never an indication of kidney disease, and while you are fooling with the nostrum your trouble, whatever it may be, is being neglected, perhaps aggravated. You had better stop cheating yourself. If your health is of any value, and go and see your physician. One patient, similarly misguided, trifled as you are doing while a cancer was spreading so far as to be utterly beyond the hope of any treatment. Another allowed an abscess to progress until serious complications arose, while fooling with alleged kidney medicine for imagined kidney trouble. Still another had just finished the first bottle of alleged kidney medicine for an imagined kidney trouble when the diagnosis was made, showing that the backache had been a mere feature of the onset of typhoid fever.

Fishskin Please reprint the formula for an ointment (not the one containing oil of sesame) for fishskin or rough, scaling, dry skin, which you printed several months ago. A girl in our office found it relieved her of that trouble after years of it, and I have it, too. (M. T. E.)

ANSWER—Salicylic acid 10 grains
Glycerin 1 dram
Lanolin 2 drams
Benzoinated lard, enough to make 1 ounce.

(If the benzoinated lard is fresh and the lanolin a good product, the drugist will turn out a very fine, creamy ointment. It should be dispensed in collapsible tube, and a very small quantity may be rubbed into the affected area of skin once daily.)

Farming In Alaska

By Frederic J. Haskin

Washington, D. C.—General farming in Alaska has been proven possible and about a hundred thousand square miles of rich agricultural and grazing land are there to be had by the taking of a few steps by those who are willing to brave some what difficult climate.

One of the scientists connected with the Government agricultural experiment stations in Alaska is here for a few days, and that is the word he brings. If you are looking for a chance to get a farm of your own without any considerable capital, Alaska offers you that chance.

Nearly everybody nowadays knows that Alaska is not a snow-covered, ice-bound waste all the year round. Not so many realize the wonderful possibilities of this far northern territory in its summer season. This Government scientist brings word that Alaska could be practically self-supporting so far as ordinary farm products go. Right now, the majority of the standard fruits, vegetables, and grains are grown there to some extent. He says what Alaska needs is more settlers with the spirit of pluck and a willingness to work to develop its farm lands.

Few People

Here, he says, is a country with 500,000 inhabitants spread over nearly 600,000 square miles. This population would be lost in a corner of New York City. It is about the number of people that live in Atlantic City, Topeka, Kansas, or Bethlehem, Pennsylvania. Scattered over this country are about 500 homesteaders, working tracts of 160 or 320 acres, and there remain 100,000 square miles of land—the size of an average state—which could be used for practical farming, about half for farm land, and the other half for grazing.

The land, then, is there. And the Government is maintaining five agricultural experiment stations in Alaska, where all sorts of experiments are conducted to help farmers. Farming in this latitude presents different difficulties from farming in the states. Potatoes can be raised in Alaska, and cauliflower, beans, strawberries, apples, lettuce, and any number of other familiar foods. But you cannot take any kind of strawberry plant, for instance, and expect to get firm sweet berries.

The strawberry illustrates very well what it means to adapt a product of a temperate climate to conditions in the far north. The experiment station at Sitka has made 12,000 tests with strawberries in order to find varieties really suited to Alaska. To make the experiments the two mild strawberries native to Alaska were crossed with different hardy varieties of the cultivated strawberry. Nine-tenths of the plants proved too frail for the climate, or produced soft or insipid fruit. These were discarded at once. Of the other tenth all but three or four in every hundred were also discarded as not altogether satisfactory, leaving the best product so far as color, flavor and size of the berries was concerned. This is a good example of how the agricultural products are worked out for arctic and near-arctic regions.

Long and extensive experiments have been conducted to find grains sufficiently hardy and swift in growth for planting, growth, and harvest to be crowded into the brief Alaskan summer. It seems to be impossible to make grain more hardy by a process of selection. That is, when the Government agents took a few seeds from the best grain one year and planted them the next, and again took the best of the harvest and planted that, and so on for several years, there was no improvement in the strain, as there would be in some vegetables.

THE QUESTION BOX

(Any reader can get the answer to any question by writing The Appleton Post-Crescent Information Bureau, Frederic J. Haskin, Director, Washington, D. C., and enclosing a stamped, self-addressed envelope. The Bureau cannot give advice on legal, medicinal, and financial matters. It does not attempt to settle domestic troubles, nor to undertake exhaustive research on any subject. Write your question plainly and briefly. Give full name and address and enclose two cents in stamps for return postage. All replies are sent direct to the inquirer.)

Q. How many Victory Medals have been issued? D. F. H.

A. To December 4, 1920, 615,382 of these medals had been distributed to as many men. This is about 15 per cent of the number entitled to the medal. If you have not received your medal you should apply to your nearest Army recruiting station.

Q. What is the least thing that can be weighed on such scales as those now in existence? W. O. P.

A. The scientists of the Bureau of Standards are able to weigh atoms.

Q. How can ordinary flour be made into pastry flour? K. K.

A. The replacing of two level tablespoons of flour with the same amount of cornstarch in each cupful used, will approximate pastry flour.

Q. What are the dimensions of the Chinese wall and how many square miles does it enclose? L. A. H.

A. The Great Wall of China is somewhat over 1,500 miles long, about 20 feet wide and 22 feet high. The wall has never been completely surveyed, but does not enclose any area, extending between Mongolia and China Proper.

Q. Is it true that some people's eyes change color? V. H. L.

A. The dilation of the pupil causes a change in appearance of the eye, caused by iris, in rare instances, the influence of diseases or drugs will change the color of the eyes of an adult.

Q. If oriental rugs are handwoven, what makes the length of the nap even? O. R. W.

A. The warp threads are stretched in a frame, and lengths of wool looped through them. Before finishing, the rugs are sheared to make the filling even.

Q. How can a hair brush and comb be cleaned? B. M. K.

A. A simple method is to place the comb in a bowl of cool water to which a small quantity of ammonia has been added. In 10 or 15 minutes dip the brush in, taking care to wet the back as little as possible. Use the brush to clean the comb. Give the brush a few final dips and place to dry, resting on its bristles.

Q. When and by whom was latitude and longitude established? G. W. P.

A. Latitude and longitude were first laid down by Eratosthenes, a Greek mathematician and geometer who lived in the second century, B. C.

Q. How long has it been since Priests of the Roman Catholic Church were permitted to marry? C. E. S.

A. Pope Sixtus of the Roman Church passed an edict in 385 which not only enjoined strict celibacy on bishops, priests, and deacons but in stated on the separation of those already married or their expulsion from the Church.

Sister Mary's Kitchen

So many people have asked for the recipe for "mock angel food" that I'm giving it again for the benefit of everybody. Eggs are rather scarce in winter and a good cake using only three eggs means much to a struggling housekeeper. The quickness with which the cake is mixed, the number of times the sugar and flour are sifted and the lightness of the egg whites determine the quality of the cake.

MOCK ANGEL FOOD

1 cup sugar
1½ cups flour
3 teaspoons baking powder
1½ teaspoon salt
1 cup sweet milk
1 teaspoon vanilla
3 eggs (whites)
Sift flour and sugar separately first, then sift together four times adding salt and baking powder the last time. Scald milk and add dry ingredients. Add vanilla and mix quickly but thoroughly. Beat the whites of the eggs with a whisk until stiff and dry. Fold into cake mixture. Bake in a pan with a chimney in a moderate oven for 50 minutes.

Menu for Tomorrow

BREAKFAST—Orange juice, fried corn-meal mush, sirup, creamed potatoes, coffee.
LUNCHEON—Apples stuffed with sausage, health bread, steamed chocolate pudding, tea.
DINNER—Noodle soup, baked stuffed fish, tomato sauce, steamed rice fruit salad, crackers and cheese, coffee.

My Own Recipes

Noodle soup will be lifted to the same class as consommé if the noodles are cut into very fine shavings and added to a clear soup. The soup is served in bouillon cups and makes an ideal first course on a chilly night. The noodles give the clear soup just enough heaviness.

APPLES STUFFED WITH SAUSAGE

4 large apples
3-4 pound sausage
Do not pare apples. Remove core leaving a thick shell. Fill cavity with sausage. Put in a shallow pan with a little water in the bottom of pan and bake in a moderate oven for 30 or 40 minutes. The sausage must be thoroughly cooked through.

Williams to Preach

Dr. T. D. Williams, superintendent of Appleton district of First Methodist church, will preach at the church night meeting at the Methodist church at 7:30 Wednesday evening. His theme will be "personal evangelism."

Walter Koester, Eight tables were in play.

Sells Seymour Hotel

The George Walter Brewing company has sold the Seymour hotel property at Seymour to the United States Consumers' corporation of Milwaukee. The consideration was not announced. The deed was recorded at the register of deed's office Thursday.

All Day Meeting

The monthly all-day meeting of the Woman's Union of the First Congregational church will be held Friday. There will be a work session in the morning, a luncheon at noon, a business meeting and a program by the Ladies Missionary society.

Dance in Kimberly

The Kimberly-Clark Recreation association will hold a dance in the Kimberly dining hall Friday evening, Jan. 14. The Valley Country Club orchestra of Neenah will furnish music. Dancing will commence at 8 o'clock.

Kitchen Shower

The Misses Ella Malone, Clara Lohn and Ellen O'Connor entertained at a kitchen shower for Miss Ida Scherck at the Woman's club rooms Wednesday evening. The evening was spent in dancing and light refreshments were served.

Party at Neenah

Miss Lynda Hollenbeck will entertain a number of Appleton friends at her home in Neenah Friday evening. Three tables of schafkopf will be played.

Moose Dancing Party

Invitations will be issued in about ten days to the last Moose dancing party before lent. The party is to be held in Moose-Pythian hall Feb. 14.

Maennerchor Party

A card party is to be given at eight o'clock Sunday evening at Rhine lodge Odd Fellow hall by the Appleton Maennerchor. Prizes are to be awarded and a lunch is to be served.

"Up In Mabel's Room"

Have you ever considered a rosy-pink chemise funny? Perhaps you have not, but that is because you have never seen "Up In Mabel's Room" the phenomenally successful farce which A. H. Woods will present at the Appleton Theatre on Jan. 14, Friday, for an engagement of one night. A chemise may not be funny in itself but in "Up In Mabel's Room" it causes more funny complications than there are revolutions in Mexico. The production is one of the handsomest that has ever come to the Theatre.

Confessions of a Bride

(Copyright 1920, by The Newspaper Enterprise Association)

THE BOOK OF DEBORAH.

Is Bob Guilty of Any Act of Disloyalty to Jane?

"The poor girl is finding out a good deal about the high cost of loving," said Chrys, when I told her how bravely Deborah Burns had turned away from her great temptation.

"It isn't as if Deb were a little saint like you, Jane. You manage somehow to keep up with all the new philosophies, without getting a bit upset!"

"So do you, Chrys!"

"We're older than Deb. You're happily married—and I—"

"You're a feminist!" I interrupted.

"For you, equal rights in love, or no love at all!" I almost stammered, for I had had it on my tongue's end to say that she was an incorrigible cynic about love.

"Between us, we girls represent the three emotional conditions of the modern woman, I should say," mused Chrys. "I myself do not believe that any human love lasts very long—except that of the mother for the child!"

"Very advanced notion, I suppose, but of course I don't follow you, Chrys."

"Few do. Now you, Jane, keep all the old-fashioned faith in the 'love-me-forever' theory, in spite of the revelations you're always getting from some new novel. But poor Deb! What a price she pays! She's so young—to be simply pushed in one direction by eroticism—and then held to the most rigid

conventions by—by her bringing up, I suppose."

"You're wrong there, Chrys. Deb is stabilized by instincts, all women possess—only some refuse to use them."

"May be. At any rate, she's only one of many lovely and lovable girls who are torn between two opinions today, who are trying to find some level ground upon which to build their happiness. I say that modern love is expensive. It's a damned waste of woman's best emotions. She can't take any love simply, can't accept it naturally, as her mother did."

"You've omitted one type of new woman from your count, Chrys."

"Name it."

"The so-called 'vamp,'" I replied.

"Never saw one," Chrys scoffed.

"I have. Our neighbor!" I said bitterly.

"Of course. I forgot about Katherine—she'd be a good example, if she had any brains. But she doesn't care about any man—she can't love, I mean. She's vanity and egotism and she merely wants a man to say to her, 'Pretty! Pretty!'"

"Exactly! She's perfectly unscrupulous!" I raved. "Without judgment or generosity!"

"Jane Lorimer, what's the matter with you? Is it possible that you're jealous of an inferior creature like—"

Chrys paused. "That doesn't sound very nice, does it? My dear, I see why you've been moping lately. It's perfectly absurd!"

Look! Read! Consider! Use Pasteurized Milk

Suppose a friend of yours came to you with a nice piece of meat, and said, now here is some very nice meat which I can sell you for 5c less per pound than you can buy it for in the Meat Market, it is nice meat, but I will be honest with you, it is from a tubercular animal. What would you say? — I will leave the answer to you.

Did it ever appeal to you that you are confronted with this same question every day if you use RAW Milk? What we mean by raw milk is, milk, not pasteurized. Our government employs an army of inspectors in the meat packing houses and every animal found infected with any disease is condemned, yet milk may be drawn from tubercular cows, (the most dreadful disease to be communicated to mankind through milk) and sold to every family in our city without any restrictions.

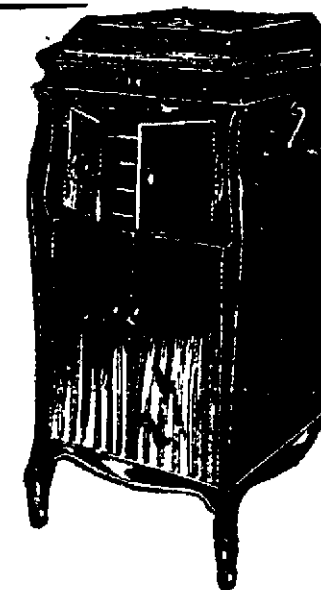

Most cities the size of Appleton and even smaller have ordinances compelling Pasteurization of Milk. Since Pasteurization has been introduced in this country some 30 years ago there isn't one case of tuberculosis on record being contracted by the use of Pasteurized Milk, yet there are hundreds of cases on record contracted from raw milk. No epidemic of whatever nature was ever traced to the use of Pasteurized Milk, yet hundreds of cases have been traced to the use of raw milk.

You may ask what is Pasteurization?

Pasteurization as applied to milk, is heating the milk up to 142 to 145 degrees Fahrenheit, then holding it at that temperature for from 20 to 30 minutes, this procedure will destroy all pathogenic or disease germs and render it perfectly harmless for the child as well the invalid, without destroying any of its food properties. Did it ever appeal to you to demand pasteurized and safe milk? If not make up your mind to use nothing but Pasteurized and safe Milk, it is the cheapest at any price, for there is more disease carried in and communicated through RAW Milk than any other food we consume. You can't afford to run chances. Yours for Pasteurized and Safe Milk

NEW LONDON WILL FLOAT BOND ISSUE

Northern City Will Borrow \$150,000 for Fifteen Years, Paying 6 Per Cent.

(Special to Post-Crescent)
New London—Hugo Wege, a Lebanon farmer, is suffering with severe bruises which he received in a fall. The accident occurred while he was butchering at the L. O'Brien farm. Wege fell backwards off a platform about eight feet high, landing on the back of his head. He was unconscious for several hours and his shoulder and back were badly bruised.

At a recent meeting of the city council it was decided after a month's deliberation that the city will float a bond issue of \$150,000 with interest at 6 per cent. The city will pay \$5,000 on principal and interest for the first five years and then \$12,500 and interest for the next ten years until the total interest down about \$30,000. The council is now preparing the ordinance and the bonds will be ready to market March 1.

MILWAUKEE SOLONS GET OFF TO POOR START IN MADISON

Metropolis Will Have Hard Time Getting Anything From Legislature.

(Special to Post-Crescent)
Milwaukee—Milwaukee, for which approximately one-half of the bills are introduced in the legislature, will have a hard time to get what it wants from the legislature this year, in the opinion of many of the members as the result of the "boner" pulled on the first day of the session by three of the members from that city.

It has been an unwritten rule of the legislature for fifty years or more that the officers of each house be nominated the night before the opening of the session by the different parties in caucus, and the caucus nominees have always been the nominees of each party when it came to the election.

In the assembly caucus Tuesday evening the Milwaukee delegation was split on the nomination for speaker, despite the fact that the delegation had supposedly been organized to work as a unit. Most of the members from Milwaukee were either for Ingalls, of Racine, or Hanson, of Mauston, both classed as "wet" candidates, some were for Young and a few for Olson. An effort made in the caucus to effect a combination against Young failed and he was nominated on the fourth ballot.

It was discovered after the caucus that Assemblyman Schwalbach, democrat of Calumet county, had voted in the caucus, his name having been called each time. This was taken as an excuse by some of the disgruntled ones to start an agitation to carry the matter to the floor of the house. Little support was secured for the proposition, none from the older members who knew what it would mean.

When nominations were called for Wednesday afternoon Judge J. B. French, Superior, nominated Riley S. Young, the republican caucus nominee. Julius Kleiser, Milwaukee socialist nominated William E. Jordan as the socialist candidate and then to the surprise of the older members, Charles Mettling, Milwaukee, nominated Frank Hanson, Frank Prescott nominated Wallace Ingalls and John Schafer, Wauwatosa, nominated Olson.

Speaker Young's friends were furious, they welcomed a roll-call, they said, confident of his election, but it would at least show who could be depended upon and who were to be shunned. The nominations were closed and the clerk started to call the roll. When 24 had voted, 19 of them for Young, showing beyond any question of doubt that he would be re-elected, Assemblyman Olson went over to Schafer and demanded that his name be withdrawn as he had not intended that it be presented. It was held, however, that all nominations had been recorded and duly seconded, the nominations closed and practically one-fourth of the vote polled and that it would be impossible to withdraw any name. However, it was stated the journal would show Olson had asked to have his name withdrawn.

Young received 74 votes, Olson 6, Ingalls 5, Hanson 4, French 1, and Jordan (sco) 5. Young was declared elected.

STRANGE POISONING!

The most eminent physicians recognize that uric acid stored up in the system is the cause of rheumatism, that this uric acid poison is present in the joints, muscles, or nerves. By experimenting and analysis at the Invalids' Hotel and Surgical Institute in Buffalo, N. Y., Dr. Pierce discovered a combination of active remedies that he called "Auric"—which drives out the uric acid from the system, and in this way the pain, swelling and inflammation subside. If you are a sufferer from rheumatism, backache, pains here or there, you should obtain "Auric" at the drug store; or send Dr. Pierce 10c for trial package. "Auric" is many times more potent than lithia.

ABANDON HOTEL SALE

The Fox River house, Menasha will not be given away at a dance Saturday evening as planned. A large number of tickets were sold but the proprietor is refunding all the money. Ticket sellers in Appleton are reimbursing local people who entered the contest.

NERVOUS, IRRITABLE, AILING WOMEN

Mrs. Britten Tells How She Was Restored To Health After Suffering for More Than A Year.

Another Triumph for Lydia E. Pinkham's Vegetable Compound

Dimondale, Mich.—"I had inflammation and a displacement and weakness, and it had been neglected so long that it caused great pain, and this affected my mind and nerves so that I was very irritable. I had severe pains every month, so that I was often obliged to lie in bed for two days at a time. I suffered for more than a year before my friends said, 'Why don't you try Lydia E. Pinkham's Vegetable Compound?' So I purchased one bottle, after another until I had taken ten bottles, then Lydia E. Pinkham's Sanative Wash. I received so much benefit from this treatment that I am now able to do my own work."—Mrs. W. D. BRITTEN, R. No. 2, Dimondale, Mich.

"I was bothered for a long time with female troubles and was so nervous I felt almost afraid at times. I also had a pain in my right side and was certainly in a bad way. Lydia E. Pinkham's Vegetable Compound relieved me of these nervous feelings and pains I have taken, but I took it for nearly a year and it has done me a world of good."—Mrs. JESSIE GRANGER, R. No. 3, Box 51, Kalamazoo, Michigan.

Good health is a woman's greatest asset. With it she may be the inspiration of her husband, a happy mother, and the life of the home. Without it she suffers agonies herself, household duties are a burden, and her family is made miserable by her condition.

Is it any wonder that these women were nervous and irritable after suffering so long from such deranged conditions? Such ailments act directly upon the nerves, and it has been said that a large percentage of nervous prostration, nervous dependency, "the blues," and nervous irritability of women arise from some derangement of the female organism.

If women who are in this condition would only profit by the experience of others and take Lydia E. Pinkham's Vegetable Compound at once, much suffering and unhappiness would be averted, as everyone knows a nervous, irritable, ailing mother makes the home unhappy and her condition irritates both husband and children.

Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women" will be sent to you free upon request. Write to The Lydia E. Pinkham Medicine Co., Lynn, Massachusetts. This book contains valuable information.

Let Loose the Dog!

A farmer in a small Southeastern Missouri town sold a carload of melons to a city buyer for \$60. The buyer said the market was "glutted." But it wasn't! That carload was resold to other speculators four times before it left the town, and the last price paid for it was \$340. But only the \$60 paid to the farmer remained in the community.

Now, the Southeastern Missouri Melon Growers' Association obtains correct information about marketing needs and sells the farmers' products coöperatively. The profits stay at home.

COÖPERATION is a watchdog that will protect your interests and ours. Help us to keep it on the job here. We ask your support and encouragement of our organization because we believe coöperation will benefit us all and promote the welfare of our community.

THE COUNTRY GENTLEMAN is making public the experiences and the services of coöperative organizations throughout the country and is leaving no stone unturned to help farmers make money. If you are not already a reader we urge that you get acquainted with this mine of information and inspiration about the business of farming. Its national vision enables it to give you needed warning of causes for coming price changes before they occur. Almost every newspaper quotes day-old or week-old market prices. But you can't buy or sell your stuff today or next week at last week's prices. You have to look into the future. And THE COUNTRY GENTLEMAN offers one sure way to get sound guidance.

Your whole family will enjoy the \$2 big issues. Pin your dollar to the coupon. You'll get your money back through the marketing articles alone.

REMOVES APPLE TREES FROM FARM

Fred Brockman Finds It More Profitable to Raise Some Other Crop.

Outagamie county is a poor place to raise apples and try to sell them at a profit, thinks Fred Brockmann, farmer living in the town of Freedom. Mr. Brockmann had two acres of prolific apple trees but is clearing the entire tract except for a few trees near his house which he will use for shade and for a home supply of apples. The apple crop this year was unusually heavy and there appeared to be no sale for them. Wisconsin apples do not keep all winter and most people buy the eastern product instead. Mr. Brockmann believes his land will produce greater profit if planted with something else.

MERCHANT BUREAU IS PREPARING TO OPERATE

With its equipment ordered and forms in the hands of the printers, the merchants' information bureau to be established at the chamber of commerce rooms will be in operation within a week or two.

Some of the most modern filing systems used by information bureaus anywhere in the state are to be installed here. Shipments will be made in a day or two. It will perhaps take a month or more for the bureau to function fully, because it is a task of no small proportions to collect the necessary information from business houses. Each merchant will be supplied his cards to be filled out. There will be about 16,000 cards which must be completed, classified and indexed.

ago. It appears when there is a big apple crop, there is no sale for the fruit, and when the crop is small, nobody has enough to sell so there always is a disadvantage in raising apples.

School Teacher Needed Brains

"I never have had such a 'God-send' come to me as when I took the first dose of May's Wonderful Remedy. I was afraid I would have to give up my school because of severe stomach, liver and bowel trouble which caused such a pressure of gas that I could not use my brain at times, and my heart would palpitate awfully. Since taking a treatment of May's Wonderful Remedy a year ago, all this has disappeared." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.—All Drug-gists.

COUNTY RED CROSS IS THIRD IN STATE

Outagamie County's Record Is Comparable With Best in Wisconsin.

Outagamie county stood third in Wisconsin for the number of members enrolled in the American Red Cross during the 1921 roll call. There was a feeling that the county had lagged considerably in view of its past quota, but decreased membership appears to have been the rule all over Wisconsin, according to reports thus far compiled.

This county had a total of 11,000 members in war times and secured 5,200 in the campaign just completed. This gives a standing of 52 per cent of its war time enrollment. Deloit led the state with a 75 per cent enrollment. Janesville came second with 52 per cent. Appleton follows with 52, and La Crosse with 49 per cent. Oshkosh comes next, with 3,520 memberships out of a quota of 10,000 for Winnebago county, or 35 per cent.

Waupun was close behind Oshkosh. There were 11,500 members in the war period and 3,700 have been enrolled, a slight increase over Oshkosh with its 3,670.55. Marinette had only 6,000 in the war period and 1,800 were enrolled this year, a percentage of 30. Racine did not make a very good showing, considering that it had actual contributions aggregating \$1,361.78. Its enrollment including those donations is 7,295, while during the war it had 32,000, giving it a percentage of only 22. Eau Claire did not do quite as well, having 10,839 during the war and renewing only 2,100 membership this year, a percentage of 19. Green Bay showed only 18 per cent with 4,000 enrolled as against 20,951 during the war.

At Chippewa Falls the falldown was from 6,000 to 1,000 or a 13 per cent result. Sheboygan enrolled 13 per cent with 2,000 as against 17,000 during the war. Manitowoc did not do quite as well, having 1,000 as against 9,000 during the war or 11 per cent. At Waupaca the smallest percentage was noted, but it is said the work was only partially organized. Only 200 were enrolled as against 6,000 during the war, a net result of 3 per cent.

This is authorized and paid for by E. V. Werner, Shawano, Wis.

ANNOUNCEMENT
I hereby announce to the electors that I am a candidate for re-election to the office of Judge for the Tenth Judicial Circuit of Wisconsin, on April 5th, 1921.

Koeler, grand counselor; and Frank Nolte, grand sentinel and district deputy.

The program will be followed by a dancing party in south hall and cards in the main hall. The committee on arrangements consists of Charles Rumpf, William Bonini and Delmar Peterson. Members and their families are invited to the banquet and for the evening.

Hits Traffic Post
Poor Mr. Silent Policeman standing out in the cold on the College avenue and Oneida street corner had to take another awful bump late Wednesday evening. He had on his fighting clothes, however, for he didn't get a scratch, but his assailant had a nice bill to pay. The post was struck by an automobile driven by John Sheburne, Dale. The front of his machine was smashed in but the post was not damaged.

Town Talk

Complete Inventory.
The county inventory committee which has been at the court house for the last two weeks, completed its work Wednesday. The members spent the greater part of the time in making a record of the equipment of each office and setting a price thereon. An inventory was also made of the property in the county jail and workhouse.

On Hawaiian Paper.
Miss Mathilde Holmes, a student at Lawrence college last year and a member of Theta Sigma Phi, national journalistic society, has a position on the biggest daily newspaper in Honolulu, according to word received here by friends. Miss Holmes was on a Ketchikan paper for several years, and was in newspaper work at San Francisco, Cal., last summer before sailing for Honolulu.

Milk War Coming.
If reports heard about the city are true, some people will be buying milk at 8 cents a quart. It is said that a farmer, who formerly supplied milk to the Greenville condensary, is distributing circulars announcing his intention to start a milk route and sell his product at 8 cents a quart. The circular states he will use no bottles, in order to reduce the expense, but will sell from his milk can.

Car in Ditch.
A Buick automobile was sent into a ditch on State road Wednesday when the driver, whose name was not ascertained, was unable to release his machine from a rut. The car remained upright and was undamaged.

Gustave Worby spent Wednesday at Kiel on business.

Charles Willis of Seymour, transacted business here Wednesday.

- Backache?
- Rheumatism?
- Run-down?

Those of us who are past middle age are prone to eat too much meat and in consequence deposit lime-salts in the arteries, veins and joints. We often suffer from twinges of rheumatism or lumbago, sometimes from gout, swollen hands or feet. There is no longer the slightest need of this, however, as the new prescription, "An-uric," usually gives immediate results as it is many times more potent than lithia, in ridding the impoverished blood of its poisons by way of the kidneys. It can be obtained at almost any drug store. Ask for Dr. Pierce's "Anuric" (anti-uric acid) for kidneys or backache, or send 10c to Dr. Pierce's Laboratory in Buffalo, N. Y., for trial package.

M. Magos, a well known cabbage buyer, who has been in Appleton for several days, returned to Chicago Wednesday, accompanied by his wife.

OBSERVE BETTER
SPEECH WEEK HERECounty Superintendent Appeals
to Teachers to Enlarge
Vocabularies.

A. G. Meating, county superintendent of schools, has designated the week of January 11 as "Better Speech Week" in schools of out-of-town county and has mailed each teacher a letter containing suggestions. He has emphasized the necessity of referring to the dictionary for pronunciation and no matter of disputed words and phrases.

CARR DEFEATS CHICAGO
EXPERT AT BILLIARDS

Chicago's state champion billiard expert, John Weiner, three cushion match at Carr & Hanson billiard rooms, Wednesday evening by a score of 20 to 12. The game was well played and was interesting to the large and enthusiastic audience. Dr. H. W. Douglas refereed the match. Mr. Weiner expressed a desire after the game to meet Mr. Carr again, and as much as he will be here for several weeks, there is a possibility of another match being arranged.

to the dictionary for pronunciation and no matter of disputed words and phrases.

"It is my conviction," says the superintendent, "that teachers may do much for pupils by increasing their vocabularies. This means that more attention should be given to dictionary work. I suggest a campaign be started to have teachers own their dictionaries."

Test diploma questions are to be sent out to the various schools about the middle of February. The purpose of this examination is to show pupils what will be required of graduates. The superintendent is soliciting ideas from teachers as to the most effective county commencement with the intention of making whatever changes appeal to the majority of schools.

SPEAKS ON RUSSIA
AT SUNDAY FORUMProf. Samuel Harper, Chicago,
to Give His Personal
Observations.

Russia's industrial and labor policy and its effect on wage earners, peasants and artisans, will be described in a lecture at the People's Forum Sunday evening by Prof. Samuel N. Harper, Ph.D., Chicago, one of the best informed men in the United States on Russian matters. He is professor of Russian language at the University of Chicago.

Dr. Harper's subject will be "Russia and the Bolsheviks." He will tell the truth about the nation that has been in the limelight perhaps more than any other since the World war began. He visited Russia 12 times from 1904 to 1917, remaining from four to six months at a time. He has therefore witnessed many of the scenes he will describe.

The speaker will give working men a chance to know whether they like the soviet principles in actual application and whether they want them transplanted to America. He will also speak of their foreign policy, their experience in operating manufacturing plants and methods of dealing with opponents of their party inside Russia. Much time will be left by Dr. Harper for questions from the floor. He has a vast command of facts and knows Russian affairs. He is an able orator and is expected to thrill his audience with his story of the strife torn nation.

HORSE KILLED IN WILD
RUNAWAY ON ONEIDA ST.

Louis Steffen, Grand Chute farmer, who operates a milk route in Appleton, is minus a horse valued at about \$100 as the result of a runaway on Oneida street near Second avenue Wednesday morning. Mr. Steffen was in the wagon but jumped to safety and was unhurt.

One of the two horses became ugly and tried to kick. His leg got over the wagon tongue, causing the other horse to become frightened. The team started down the road, but its race was halted when the animal straddling the tongue was unable to guide itself and ran into a telephone pole. The horse's back was broken and it died within a few moments.

Mr. Steffen was in the milk wagon when the horses started. He realized the seriousness of his predicament when he was unable to control the horses and decided to jump and let the team continue. He left the wagon when it was traveling swiftly but was unhurt. The vehicle also crashed into the pole and was almost demolished.

OPEN WINTER HELPS
FARMS PREPARE WOOD

Next spring Mr. Farmer won't be looking at his pile of four foot wood wishing it was cut. The weather man has helped him to accomplish the job now.

The usual practice is to cut the wood from timber patches early in the winter. It is hauled to the farm but there is usually too much snow to make it possible to saw the wood until spring. The snow remains long enough to give sleighing while the wood was cut, and went away just in time to expedite the sawing.

Some farmers have saws of their own run by gasoline engines and others engage sawing crews which cover the rural districts.

INTERLAKERS PLAY TWO
GAMES IN TWO NIGHTS

Interlake basketball team will play St. Norbert college at 8 o'clock Friday evening at the Y. M. C. A. The line-up will be as follows: Rock, McCourt and Floto, forwards; Gardener and Gregory, center; Kessler, Day, Welty and Van Roy, guards.

The Interlake engers will play the Wisconsin Rapids quintet Saturday evening at Armory G. A preliminary game will be played between the Appleton Woman's club girl's team and a Seymour girl's team. A dance will be held after the game.

TAX COLLECTIONS ARE
GREATER THAN YEAR AGO

While the rate is lower, taxes are somewhat higher than they were last year due to a higher assessment, but less objection is being offered by taxpayers than a year ago. Taxes are still being collected at the rate of from \$10,000 to \$20,000 per day and while the lobby of the treasurer's office is no longer crowded, people are coming in sufficient numbers to keep the treasurer and his assistants busy. The amount of taxes paid so far is in excess of that of other years at this time.

STATE MOOSE EXECUTIVES
MEET IN FOND DU LAC

Frank J. Foreman, vice president of the Wisconsin State Association of Moose, will attend a meeting of the state executive committee in Madison Sunday afternoon when plans for raising sufficient money to complete the Wisconsin memorial building at Mooseheart, Ill., will be considered. About \$5,000 has been turned over to the Mooseheart board of governors and it is necessary to raise \$22,000 more. The Wisconsin building is to be a dormitory.

It is planned to have the building completed by June. Dedication exercises will probably be held during commencement season.

BUSINESS IS BETTER
HERE THAN IN EAST

Traveling salesmen visiting Appleton congratulate merchants and business men on business conditions in the city generally. They say everything is at a standstill in eastern states and that there is very little activity even in Illinois. Because its principal industry being the manufacture of paper Appleton has escaped to a great extent the depression that has been felt by other cities in Wisconsin and by many cities in adjoining states.

Miss Minnie Wildenberg of Little Chute, was a caller in Appleton Wednesday.

Some of the families whose children attend the Woodlawn school, town of Grand Chute, are up in arms over the actions of a farmer living in the neighborhood who insults the boys and girls while on their way to and from their homes. Not only have some of the pupils been called vile names, but one or two of them have been beaten by the man.

The parents intend to put a stop to the practice, and if nothing else avails, talk of placing the offender under a peace bond for six months.

KAUKAUNA FLOOR TEAM
OPENS WITH OCONTO

Kaukauna high school basketball team begins its season Friday night in the auditorium when it clashes with Oconto high. Oconto has been having hard luck in athletics and is not expected to have much change against Kaukauna.

The girls' basketball team will play the girls' team from West Green Bay high school. The Kaukauna girls have a score to even with Bay girls. On Dec. 10 they were defeated at Green Bay. The first game will begin at 7:30 o'clock.

ELKS PLAN BOXING
SHOW FOR THIS MONTH

A boxing contest is to be staged at Elk club Jan. 23, by the Elk Athletic association. Three matches will take place. Bout will be under the direction of the boxing commission. Jack Luddy and Joe Poulach of Kaukauna will meet in the first bout of five rounds. Their weight is 135 pounds. Mickie Grimm of Appleton will meet Al Hoppe of Kaukauna in a six round bout. Weight of these contestants is 155 pounds.

The third bout will be between Jahber Ristau and Billie Powers of Kaukauna. The bout is scheduled to go eight rounds. Dauber Jaeger of Fond du Lac, will referee.

Julius Kaim is attending the furniture show in Chicago this week.

Miss Hannah Timm left Tuesday morning for the northern part of the state where she will spend two weeks visiting friends and relatives.

Carl Peotter returned from a visit to Green Bay Wednesday.

LUTZ BROTHERS BEGIN
ICE HARVEST MONDAY

Lutz Bros. are planning to begin filling their ice houses next Monday. The one at Lehman's landing will be filled first, after which operations will be transferred to the lake. Ice at present varies from ten to thirteen inches and is of good quality. A sufficient number of teams and men will be engaged to complete the work in the least possible number of days.

EXPECT BIG ATTENDANCE
AT LOAN ASSN. MEETING

How important a factor the Appleton Building and Loan association has been in meeting the city's house shortage will be shown in the report of George H. Beckley, secretary, which is to be submitted at the annual meeting at 7:30 o'clock Thursday evening in the council chamber of the city hall. Many of the 250 stockholders will be present, judging from responses received by Mr. Beckley. Directors will be elected and other business transacted.

Baker And Ruth May Fight Homerun Duel This Year

"Homerun" Baker may be bumping the pill over the American League barriers again.

Last season the Yanks—to whom the Marylander belongs—wanted him mighty bad. Then along came little Erin Ward and they almost forgot Frank.

Clark Griffith is making overtures to Manager Huggins for a swap that would give Washington Babe Ruth's predecessor as a fence-buster.

The death of Baker's wife before the 1920 season opened left him with two small children to care for. He quit the game then so he could be home.

In case of a Washington deal he could be near his family during the home stands of the Nationals.

Baker last summer played semi-pro ball near his own ballfield.

The coming of the mighty Babe Ruth has dimmed the records that won Baker his home-run prefix.

But he can still hit 'em.

And the Washington club surely needs swatters.

The fans would like to see Baker and Ruth in a home-run duel in 1921.

GRAPPLERS ALL SET FOR TITLE SCRAP TONIGHT

Zoll and Hill Ooze Confidence as They Prepare to Settle Feud.

All set for the big feud. Carl Zoll, Green Bay, and George Hill, Appleton, who meet on the mat in Armory G Thursday night in what should be the most interesting wrestling match ever staged here, are primed for battle. Both men are sporting a grouch and are threatening to annihilate each other. Both are oozing confidence from every pore. It should be a match going a long way to see.

The first bout will start promptly at 8:30 and no time will be lost between scraps. It is planned to have the big men on the mat shortly after 9 o'clock.

Several thousand dollars have been wagered on the fight at even money but it is said Zoll backers are beginning to hedge and are now looking for odds. It was reported this morning that two Green Bay men have raised \$1,000 to be staked on Zoll's ability to down the Appleton man.

"You can be in bed by midnight because I have got to catch that 11:30 train to Ashland," Hill said this morning.

"You tell Hill to cancel his reservations for that 11:30 train; he won't have any use for it," was Zoll's comeback. "I don't believe Ashland people want to see a cripple wrestle and that is what Hill will be when I get thru with him."

Carl is just about as modest as ever. He regards Hill as soft pickings and is confident of making short work of him.

Ladies are to be admitted free on payment of the war tax.

Ticket sale thus far indicates a record breaking crowd. It will be necessary to fill the hall in order to break even on the show because of the big Zoll guarantee.

A slight shakeup was necessary in the preliminaries. Atkinson is scheduled to meet Walter Hines of Manitowish in the semi-windup.

NEENAH CAGERS TAKE 2ND VICTORY

Defeat St. Paul Lutherans by Score of 26 to 13—Team Standings.

St. Paul Lutherans met their second defeat at the hands of Trinity Lutherans, Neenah, in a lively basketball game at the Y. M. C. A. Gymnasium Tuesday evening. The final score was 26 to 13.

Neenah won the first half by a score of 18 to 4. The Appleton boys turned the tables in the second half but were unable to run up enough points to overcome Neenah's big lead.

Trinity Lutherans, Kaukauna, kept the lead position in the Fox River Valley Lutheran league by defeating Oshkosh, 25 to 22, at Kaukauna Monday. St. Paul and Oshkosh are to play in Oshkosh Saturday.

Two States Refuse To Enter Boxing League

New York and Massachusetts Don't Like Looks of "Article 3" of Rules

By Henry L. Farrell
By United Press Leased Wire
New York. — Boxing's league of states, like another noted league, is wrangling over a article.

Seventeen states approve all the articles and have affiliated themselves with the National Boxing association.

New York and Massachusetts, not liking the looks of "article three," have decided to stay out of the league.

The league can function without them and the league is going to function, the leaders say.

New York feels that "article three" would deprive the great states of its independence by the provision that "acceptance of membership by this association shall bind such member to abide by all the conditions we set forth and to accept and enforce all de-

cisions of the board of directors. Any violation of the constitution shall render such member liable to suspension."

Joseph Johnson, chairman of the great New York commission, pronounces that the great state cannot become subservient to any other state or states and that it prefers, in so many words, to run its own business.

Politics Is Blamed
New York didn't get a berth on the list of officers which includes Walter H. Liginger, Wisconsin, president, W. A. Tremblay, Montana; D. T. Burke, New Orleans; E. A. McCauley, Michigan, and William A. Rocap, Pennsylvania, vice-presidents; Tex O'Rourke, secretary and treasurer.

It may be a personal matter of politics between the New York commission and the International Sporting club. Some feeling was aroused when the commission limited the prizes on bouts in the state, a pet measure that

the international club suggested and was holding of the big accomplishment of the new governing body. The club intimated that the commission committed larceny on its game.

However, William Gavin, manager of the club, pulls an ace from the hole and says the New York commission will become an active member even if it doesn't belong to the association. The Walker boxing bill provides that the rules shall be the official rules of the International Sporting club.

"The rules of the International Sporting club hereby are the rules of the national association," Gavin says. With few exceptions the rules adopted are the same as the existing New York rules.

Prices for bouts are limited to \$11 a seat. Titleholders must defend their titles twice a year.

COLLEGE MAT MEN WHIP KIMBERLY BY NARROW MARGIN

Collegians Are Outweighed But Show More Skill Than Mill Team.

Lawrence upheld her supremacy in the wrestling game by a victory over the Kimberly Clark team by the narrow margin of three points. A good sized crowd witnessed the bouts in Lawrence gymnasium and the meet was in doubt up to the very last decision, the collegians defeating the mill team by the score of 31 to 28.

Kubitz sprang the surprise of the meet when he decisively defeated Sam Manita, the Kimberly strong man in the heavyweight class. The blue and white man was outweighed by thirty pounds but this handicap seemed to furnish an incentive to last year's football captain who won by a fall. Boyce of Kimberly met and defeated Alexander by two decisions in the 135 pound class and then tackled Mark Anderson in the 145 pound class. Anderson won the first bout by a fall but Coach Wundrow claimed a foul when Boyce was unable to continue and the result of the bout was omitted entirely in the scoring.

Reindle, Lawrence, showed real class in defeating Merkle in the 125 pound class by two falls. Peterson, Lawrence, won two falls from Poon in the 120 pound class. Albert, Kimberly, won a decision and a draw from McNeil in one of the hardest fought bouts of the evening.

Captain Thomas, Lawrence, and Trapanier put up the fastest bouts of the evening in the 158 pound class, the former winning by two falls. Laarschot, Kimberly, won from Lester Anderson by a decision after the first bout had been declared a draw. Hartzes, Kimberly, defeated Eddie Tink by a fall and a decision. Tink wrestled thirty pounds out of his class. Byrders, Lawrence, won a decision from Snider in the 145 pound class in a bout which did not count in the final score.

Atkinson, Lawrence, and Crowe went twenty-seven minutes to a draw in the final bout of the evening. The Kimberly team had a slight advantage in weight and strength while both teams showed the advantage of good coaching. George Hill, who is going after the state heavyweight championship at the armory tonight, directed the affairs of the Lawrence team from the side lines. Elmer Johnson, wrestling promoter, referee, and Fred Bushey held the stop watch.

MONARCH BOWLERS WIN FROM STATE CHAMPIONS

Appleton Monarchs bowling team defeated the Kaukauna Paper Co. quintet, last year's champions, 2,703 to 2,630 on the Hugenberg alleys in Kaukauna Wednesday night. The Monarchs won the last two games. D. Korrner rolled the high score for the Monarchs with 211 in the last frame but A. Strutz finished with the high average. P. Smith set the pace for Kaukauna, hitting the wood for a 214 count in the first game.

KIMBERLY-CLARK TEAM PLAYS NIAGARA TONIGHT

The Kimberly-Clark basketball team, which is leading the Y. M. C. A. Industrial league will match its skill against the Niagara mill team at Niagara Thursday night. Intense rivalry has always featured the contests between those two mills.

Coach Olson has taken seven men on his squad which includes Captain Boettcher, Smith, Clarke, Fahlestrom, Bishop, Collins and Dohr. The return game will be played in Appleton on February 5 in the Y. M. C. A. gymnasium.

The Kimberly second team will be seen in action at Little Chute tonight against the Northwesterns in what is expected to be a fast game. The Kimberly team includes Spafford, Melriw, Millard, Lillyroot, Brier and Kronsoble.

WILDE AND HERMAN BATTLE IN LONDON

SHERIFF MAKES WIFE HIS DEPUTY

Britons Confident Their Only Dodge County Woman Is First in History to Wear Under-sheriff's Badge.

By United Press Leased Wire
London—(Special)—The battle between the two great champions of the world's championship, Albert Hall and Herman, will be fought in London tonight. The two men, who are both of the same height and weight, will be in the ring at eight o'clock.

Albert Hall, the American, will lose. He is a big, powerful man, but he is not a fighter. He is a champion of the ring, but he is not a champion of the world. He is a champion of the ring, but he is not a champion of the world. He is a champion of the ring, but he is not a champion of the world.

According to the agreement, the fight will be fought in London tonight. The two men, who are both of the same height and weight, will be in the ring at eight o'clock.

The announcement of the fight has caused a great deal of excitement in London. The fight is expected to be one of the greatest of the year.

INDORSED FOR CIRCUIT JUDGE

Albert H. Krugmeier

WANT KRUGMEIER AS NEXT JUDGE

(Continued from page 1)

Established a splendid reputation. He has one of the largest law practices in this section of the state.

Unanimous Choice

Following is the resolution adopted by the bar association endorsing him for the office:

Whereas, a circuit judge for the Tenth judicial circuit of Wisconsin is to be elected on the first Tuesday of April, A. D. 1921, and,

Whereas, Albert H. Krugmeier is the unanimous choice of the members of Outagamie County Bar Association

to fill that position, now, therefore, it is hereby

Resolved, by said association that said Albert H. Krugmeier be and he is requested to become a candidate for said office, and the members of said association hereby unanimously tender to him their support.

Mr. Krugmeier this morning sent the following acceptance to the association:

"The unanimous call of the Outagamie County bar association asking me to become a candidate for the office of circuit judge at the coming spring election, is one that I cannot disregard. I accept the call and hereby announce to the electors of the Tenth judicial circuit that I am a candidate for this office."

ALBERT H. KRUGMEIER.

EVANGELIST WANTS WOMAN TO END FAST

HEAR LENINE IS DEAD IN MOSCOW

Church of God Does Not Sanction Mrs. Harrington's Revival Method.

By United Press Leased Wire
Eldorado, Ill.—Rev. G. S. Payne, minister of the Church of God, will go to Danville, Ill., immediately and plead with Mrs. Sadie Harrington, now in the forty-sixth day of her hunger fast, to force her husband to join the church, to give up the fast and take food.

Arrangements for the trip to Danville were made by the United Press today after leaving Rev. Payne, when a nation-wide search by friends and relatives of Mrs. Harrington failed.

Mrs. Harrington had indicated that she would give up the fast if the Rev. Payne advised her to do so and has been pleading for him ever since she started the hunger strike.

"I will go to Danville immediately," Rev. Payne said today when informed that Mrs. Harrington said she needed him.

"I will pray with her and urge her to give up the fast. The Church of God does not sanction such fasts to obtain converts."

The Rev. Payne will probably arrive in Danville Friday night. He was unable to leave today because of lack of train accommodations.

"I will try to point out to Mrs. Harrington the error of her method and urge her to save up her fast," Rev. Payne said.

"She is undoubtedly very conscientious and wants to do what she believes best and for that reason I want to assist the poor woman in every way possible."

Doctors Hesse and Sallo were summoned Tuesday to attend Lenine.

Miss Pearl Anderson, who submitted to an operation for appendicitis at Theda Clark hospital, Neenah, is well on the way to recovery and will be able to return to her home at Chicago Sunday.

R. F. Rowe of Oshkosh was here Wednesday on business.

HOME RULE FOR PORTO RICO URGED ON HARDING

By United Press Leased Wire
Marion, Ohio—Home rule in Porto Rico was urged upon President-elect Harding today by Antonio R. Barcelo, president of the Porto Rican senate, and Felix C. Davila, Porto Rican commissioner in the United States.

They urged appointment of a native governor, abolition of the restrictions on citizenship of the natives, and a change in the form of government to give local government similar to that enjoyed by self-governing British colonies.

Senator-elect Peter Norbeck, of South Dakota; Willis Cook, national congressman from South Dakota, and Isaac Caswell, national congressman from Minnesota, conferred with Harding over domestic questions of interest to farmers in the northwest.

FIGHTING AVIATORS FORGET THEIR SCRAP

By United Press Leased Wire
Enroute with the American balloonists, Harry, Ont.—Lieutenants Kloor, Perry and Hinton returning to New York after their balloon trip to the shores of James Bay, chatted merrily today as they lounged at ease in the private car provided for their comfort.

It looked as if the ill-fated expedition between Kloor and Hinton, which caused them to be high in the air, had been forgotten.

The train was running two hours late when they came down the line to be met at Toronto. The balloonists, Kloor, Perry and Hinton, were met by a large crowd of New York and Toronto.

Masonic Installation.

Installation of officers took place at the meeting of R. A. M. Masons Tuesday evening at Masonic hall. The officers are Oscar Johnson, high priest, Walter Storch, king, William Rogers, scribe, Arthur G. Bennett, captain of host, James H. Williams, private secretary, W. D. Ackerman, road and compass, Harvey Younger, master of third val, Percy Webster, master of 4th val, George Knuth, master of first val, Charles Thompson, secretary.

A daughter was born Friday to Mr. and Mrs. Henry Haderbecker, town of Grand Chute.

Mr. and Mrs. M. Lee of Neenah visited friends here Wednesday.

Miss Eva Lavin of Chicago is the guest of her brother, George Lavin.

TARIFF WILL HIT MARKET FOR FLOUR

Readjustment of Ocean Rates Will Affect Exportation of Wheat.

Due to a readjustment of ocean rates flour instead of wheat will be exported from this country to a great extent hereafter according to M^{rs} Marie Ziegenhagen, manager of Willy & Co.'s flour mill. During the war and for some time afterward wheat was exported almost exclusively and the milling was done in Europe, sending bran and other feed up to prohibitive prices. Under present conditions the greater part of the milling will be done in the United States.

The attention of flour manufacturers is just at present directed to congress which has under consideration a proposed tariff on wheat shipped into this country. If the bill becomes a law it is expected the price of flour will advance. A flour salesman who visited his Appleton trade this week received a telegram from his company to take orders subject to the tariff.

Miss Clara Nelson was at Oshkosh Wednesday.
